

## **THE GLOBAL ROOM FOR WOMEN IS HERE!**

Dear Friends,

**Finally a place where women can talk "woman-to-woman" around the world!**

Visit our website at <http://www.globalroomforwomen.com>

for information about our upcoming featured guests starting September 2010.

**[Click here to SUBSCRIBE NOW](#)**

Grab a cup of coffee, pick up a phone, and join live, personal conversations with remarkable women from the heart of the Middle East, modern-day India, rural Kenya and beyond. If you like, come and just listen. Come "just as you are" and share your own voice.

**Join global conversations moving at the speed of wisdom, where we are coming to know each other personally!**

- A Palestinian and Israeli woman will share how they bring Arab, Jewish, and Christian women together for peace building, healing work, and dance
- An Iraqi woman in the heart of Baghdad will describe how she gives war widows hope for the future through a sewing project
- A Kenyan mother and social worker will tell her deep commitment to the care she offers to 13,000 children in central Kenya
- Come with us to the headwaters of the Amazon and to the villages of rural India as we learn from ordinary women leading extraordinary projects to empower and uplift their communities. On every call you will have a chance to share your own voice; or if you like, just listen.

This is just a hint of what's happening inside the Global Room for Women.
